

UX/UI DESIGNER

 PORTFOLIO RACHAEL SHITANDA

ABOUT ME

I design, code & write.

I'm a UX/UI designer based in Nairobi, Kenya with experience in delivering end-to-end UX/UI design for software products. I'm passionate about improving the lives of others through design and am constantly looking to learn new things every day.

I'm a self taught designer and have learnt a lot of the processes, concepts and theories of UX/UI and product design through attending workshops, reading blogs and applying these to projects in my spare time and at work. I am very much a big-picture thinker and enjoy working on products end to end, from ideation all the way to development.

Tambua APP

ROLE

Product Designer

February - 2o2o

User Research, Interaction, Visual Design,
Prototyping & Testing

Overview

Tambua APP a portable employees ID application. Tambua app aims to help users access Employees Data for verification from this app.

The project was to identify any usability issues with the beta release and determine the critical features to prioritise for the next iteration of the product.
